Who is this Contract made with?

Your Subcontractor → Use SubContract "**SC1**"

Branches from "Who is this Contract made with?":

Homeowner

Subbing from a General Contractor or Owner Builder

Commercial or Industrial Property Owner or Agent

Homeowner → *Who will sign the contract for your company?*

- **Contractor signs the contract with the homeowner** → Use Contract "**RC3**" or Proposal/Contract "**RPC**"***
- **Your salesman signs the contract with the homeowner** → Use Contract "**RC4**"

Subbing from a General Contractor or Owner Builder → Use Contract "**RSC**"

Commercial or Industrial Property Owner or Agent → *Who will sign the contract for your company?*

- **Contractor signs the contract with the owner or agent** → Use Contract "**RC1**"
- **Your salesman signs the contract with the owner or agent** → Use Contract "**RC2**"

*** "RPC" has less "fine print" on the back (and less protection for you) than "RC3".
The front of "RC3" and "RPC" are basically the same.
